

Virginia Department of Emergency Management Tactical Emergency Casualty Care

COURSE ANNOUNCEMENT

Title: **PER-356: Tactical Emergency Casualty Care (TECC) for First Care Providers**

Date: March 12, 2019

Location: Brandy Station Volunteer Fire Station
Charter Hall
19601 Church Rd
Brandy Station, VA 22714

Time: 2 p.m. – 7 p.m.

Description: This course is designed to teach participants how to assess the situation during a high-threat incident, such as an Active Shooter or other Active Violence event, in order to make decisions about finding a safe location during the attack, provide life-saving interventions to victims of the attack, and provide information to and follow the directions of local authorities following the incident. By the end of this course, First Care Providers will be empowered to do what they can to help save their own and other's lives during a high-threat incident until medical and law enforcement responders arrive on the scene.

Target Audience: All non-public safety members of the community such as CERT, school teachers, students, public works officials, office workers, venue workers, etc.

To register: Please click on the link below and use the password "PER356" to continue:

FEMA's National Training and Education Division (NTED) offers a full catalog of courses at no-cost to help build critical skills that responders need to function effectively in mass consequence events. Course subjects range from Weapons of Mass Destruction (WMD) terrorism, cybersecurity, and agro- terrorism to citizen preparedness and public works. NTED courses include multiple delivery methods: instructor led (direct deliveries), train-the-trainers (indirect deliveries), customized (conferences and seminars) and web-based. Instructor led courses are offered in residence (i.e., at a training facility) or through mobile programs, in which courses are brought to state and local jurisdictions that request the training. A full list of NTED courses can be found at www.firstrespondertraining.gov
