

FEMA Releases COVID-19 Resource Roadmaps (Version 2.0)

FEMA recently updated the [COVID-19 Resource Roadmaps](#) to assist state, local, tribal and territorial (SLTT) partners with the unprecedented challenges associated with the COVID-19 pandemic.

These Roadmaps were developed to help SLTT partners in identifying potential sources of funding and other resources to help them with COVID-19 pandemic recovery. The five Roadmaps (food and nutrition, housing, healthcare, education, and economic recovery) were developed in partnership with nearly thirty federal interagency partners, including the U.S. Department of Health and Human Services, U.S. Department of Housing and Urban Development and U.S. Department of Commerce. Each Roadmap identifies potential solutions to address specific challenge areas and describes how supplemental and certain annually appropriated funds can be used to implement recovery solutions. Specifically, in addition to the CARES Act, Version 2.0 includes resources that were identified in the Consolidated Appropriations Act and American Rescue Plan Act.

All of the COVID-19 Resource Roadmaps can be found on [FEMA.gov](#).
